Summary of Report for the Web Site (50 words or less)

Homecare Committee members participated in the ALA asthma Walk in Milwaukee on October 5, 2008 by staffing the educational table and walking on their corporate teams. The Committee met November 4, 2008 to discuss the New Medicare PAP Policy and The 36 Month Cap information for Oxygen patients. We are all trying to decide how to proceed. Committee members were encouraged to get information out to their Medicare Beneficiaries about the Cap and how this will affect their oxygen service. All DME companies and Beneficiaries are being encouraged to contact their Congressmen and Senators about all the issues with the 36 Month Cap. Next meeting for the Committee will be in late December.
