

## WSRC Committee/Officer/Report

**Committee/Officer: Disaster Response and Preparedness**

**Person Completing report: Bob Milisch**

**Date: 10/2/09**

We are just wrapping up the AARC/CDC national ventilator survey. To date 82% OF Wisconsin hospitals have responded. We –as usual – are a leader in the effort. Members of the State Expert Panel are making reminder calls. The national goal is 90% response. We are very close to that and we will reach that goal by the October 9<sup>th</sup> deadline.

I encourage all of you to join the AARC Disaster Preparedness Listserv. There is a lot of good discussion on mandatory vaccination, infection control and using MDI's vs. SVN's to stop spread of H1N1. Check it out.
